

Ministry of health
Republic of Macedonia

Prim. d-r. Kiro SALVANI
State secretary for health

***THE ROLE OF HEALTH CARE SYSTEM
IN HEALTH TOURISM IN
REPUBLIC OF MACEDONIA***

- **The network of health care institution covers all areas in the Republic of Macedonia thus creating all conditions for available health care and satisfying health care needs of population**
- **This makes it possible for around 90% of the population to get a health service in less then 30 minutes.**

Most famous public health institutions from the side of health tourism are:

- Hospital for orthopedic diseases and thraumathology,
St Erasmo - Ohrid
- Institute for heart diseases – Ohrid
- Center for dialysis - Struga
- Clinical Centeres – Skopje

Three private hospitals are correlated with health tourism in Macedonia

- Remedica general Hospital, Skopje
- Sistina - Hospital for gynecology and obstetrics, Skopje
- Phillip the II - Hospital for cardiosurgery, Skopje

The most visited and popular places for spa tourism In Macedonia

- **Katlanovo thermal bath**
- **Negorian thermal bath**
- **Debar thermal bath.**

Health tourism has very important role in the global health promotion.

A winter landscape with snow-covered trees and mountains under a bright sun. The sun is low in the sky, creating a lens flare effect. The snow is deep and covers the ground and trees. The sky is a clear, pale blue.

Teşekurler

Thank you

Blagodaram
